

Lightweight and Comfortable

People choose folding bikes for a variety of reasons. One of those reasons is their neat, trim and stylish appearance. But ultimately they like our folding bikes because of their convenience and compact size.

These models fold into a very small package. They fold at the frame, as well as on the handlebar stem. Even the pedals fold down for easy transport.

Folding electric bikes are great for RV'ers, campers, college students and anyone who wants a lightweight foldable mode of reliable transportation.

Federal Electric Bicycle Law

HR 727

SECTION 1. CONSUMER PRODUCT SAFETY ACT.

The Consumer product Safety Act (15 U.S.C. 2051 et seq) is amended by added at the end of the following:

LOW-SPEED ELECTRIC BICYCLES

SEC. 38.

(a) Notwithstanding any other provision of law, low-speed electric bicycles are consumer products within the meaning of section 3(a)(1) and shall be subject to the Commission regulations published at section 1500.18(a)(12) and part 1512 of title 16, Code of Federal Regulations.

(b) For the purpose of this section, the term 'low-speed electric bicycle' means a two or three-wheeled vehicle with fully operable pedals and an electric motor of less than 750 watts (1 h.p.), whose maximum speed on a paved level surface, when powered solely by such a motor while ridden by an operator who weighs 170 pounds, is less than 20 mph.

(c) To further protect the safety of consumers who ride low-speed electric bicycles, the Commission may promulgate new or amended requirements applicable to such vehicles as necessary and appropriate.

(d) This section shall supersede any State law or requirement with respect to low speed electric bicycles to the extent that such State law or requirement is more stringent than the Federal law or requirements referred to in subsection (a).
