- 156 Volt DC Motor; 20+ Horse Power Continuous
- Three-wheeled vehicle registers, insures and parks as a motorcycle
- Fully Enclosed/All Weather Driving
- Power Windows / CD Player
- Tilt Wheel / Heater
- 30 mile range
- 13" Aluminum Wheels and Tires
- Disc Brakes
- Direct Cog-Belt Drive
- Double A arm front suspension / Single sided swing arm rear suspension
- Length - 112 Inches; Width - 52 Inches; Height - 57 Inches
- Storage Space 6 Cubic Feet (One Grocery Cart Full)
- 0-30 mph: ~3.5 Seconds
- 0-60 mph: ~12.5 Seconds
- Occupancy: 1 (One)
- Energy: 13 Optima Blue Top Deep Cycle Marine Batteries
- Battery Charger: 110v/20 amp Built in with Power Cord

We call it a PEV, or Personal Electric Vehicle, since it transports only the driver and the labels “car” and “motorcycle” do not fit perfectly.

The NmG PEV does meet the DOT safety standards required for motorcycles and three wheelers.
